

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

We are a retired couple who use our one prepaid wireless phone for safety, security and convenience. We average 20 minutes of use per month. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Thank you for your consideration.

Sincerely,

Richard Gray
